

## TIMBER BIFOLD DOOR THRESHOLD OPTIONS

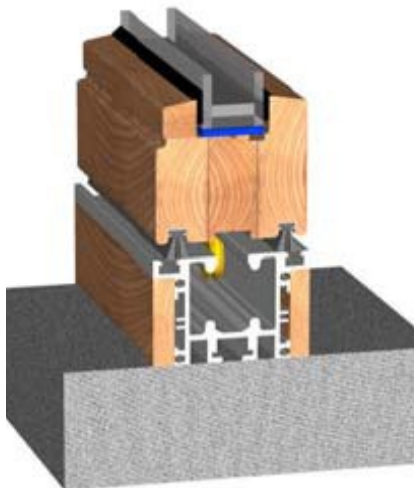

Hardwood and softwood folding sliding doors are supplied with a flush track as standard which provides an out of sight track system and flush floor levels. There are many other threshold options available but the four most requested types are shown below.

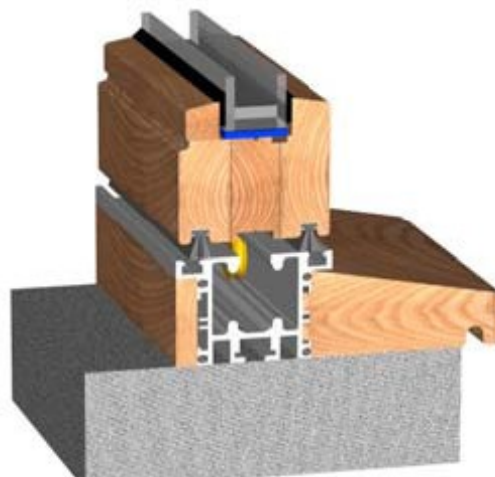

Standard Flush Track

Flush Track with projecting cill

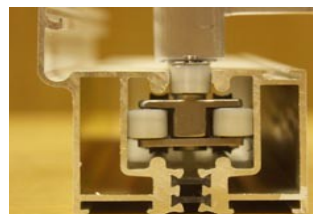

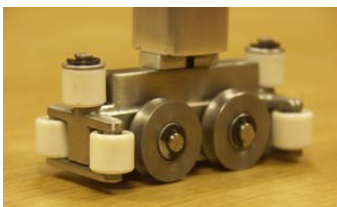

Raised Track

Raised Track with projecting cill

Stainless steel rollers are concealed within the aluminium top and bottom tracks providing effortless operation of the door.

## TRACK SYSTEM DIMENSIONS

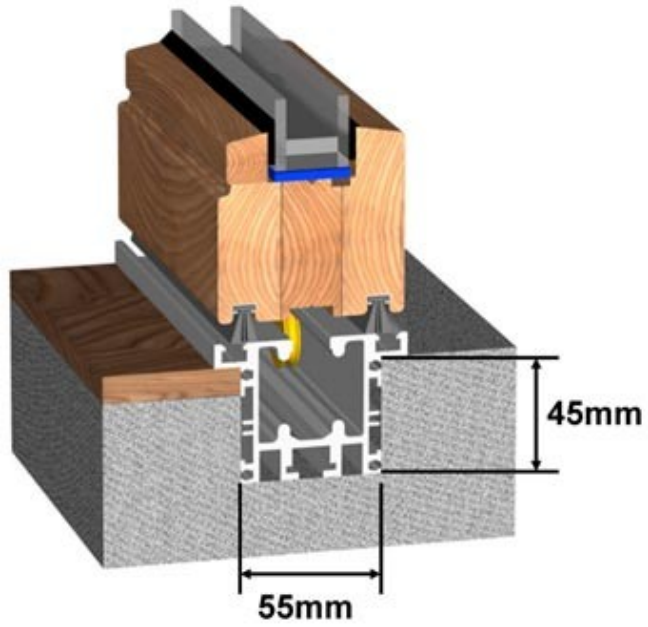

Image shows flush track arrangement but dimensions remain constant regardless of threshold and track option selected.
